

Tobias Nühlen

Software Developer · C# / .NET · Blazor · WPF · SQL Server · AWS

Cologne area, Germany · +49 178 8138039 · tobiasnuehlen@gmx.de

linkedin.com/in/tobias-nuehlen · github.com/Towby · towby.github.io/Towby-Portfolio

Software developer with two years of professional experience building industrial line-of-business applications in C# and .NET. Strengths in desktop development with WPF, UWP and MVVM, data access with Entity Framework Core and Microsoft SQL Server, and running and migrating application components on AWS. Currently porting an established UWP application to Blazor with a responsive interface serving phone, tablet and desktop from a single codebase.

EXPERIENCE

Software Developer

werusys Industrieinformatik, Cologne, Germany (hybrid) | Sep 2024 – Present

Promoted from Junior Software Developer in Sep 2026

- Build and maintain industrial desktop applications in C# and .NET using WPF, UWP and MVVM, including the data access layer on Entity Framework Core, Mindscape LightSpeed and Microsoft SQL Server.
- Porting an established UWP application to Blazor: component decomposition, replacement of UWP-specific APIs, and a responsive interface serving phone, tablet and desktop from one codebase.
- Migrated a SQL Server Reporting Services stack from an AWS RDS Option Group to dedicated EC2 instances; independently diagnosed and resolved SQL authentication, SSL trust and report catalog hosting failures, then documented the migration for the team.
- Work in a Scrum team using Jira, Azure DevOps (repos, pull requests, code reviews) and Confluence.

C# Trainee

MSA GmbH, Niederkassel, Germany | Jul 2024 – Aug 2024

- Built a cross-platform desktop application in .NET with Avalonia and MVVM; wrote epics and user stories in Jira and technical documentation in Confluence.

League Operations · Player Success Agent

G-Loot, Remote | Apr 2018 – Jan 2022

- Planned and ran international online tournaments, coordinating teams across multiple time zones; provided IT and setup support at offline events including Gamescom.
- Handled English-language customer support for an international gaming platform through Zendesk, plus manual anti-cheat review and structured bug reporting via Jira.

EDUCATION

B.Sc. (Hons), Games Programming

SAE Institute Cologne, Germany | 2022 – 2024 · Thesis: Creating a Mixed Reality Roguelike Shooter with the Oculus SDK

Advanced Diploma, Games Programming

SAE Institute Cologne, Germany | 2022 – 2023

TECHNICAL SKILLS

Languages: C#, C++, SQL, JavaScript, HTML, CSS

.NET & UI: .NET 8, .NET Framework, Blazor, WPF, UWP, Avalonia, MVVM, XAML, responsive UI design

Data & cloud: Microsoft SQL Server, Entity Framework Core, Mindscape LightSpeed, SSRS, AWS (EC2, RDS), IIS

AI & ML: Retrieval-augmented generation, Semantic Kernel, Qdrant (portfolio project: docs Q&A assistant in .NET 8)

Tools: Visual Studio 2022, Azure DevOps, Git, GitHub, Jira, Confluence, Scrum, code reviews

ADDITIONAL

German (native speaker) · English (fluent, written and spoken)
